Original Love Approach

2011 Scottsdale Convention

Please join us as we present a different format than ever before.

Tremendous changes have taken place over these past 41 years. This year we will discuss some of the newer thoughts, practices and additional services being employed. We will explore ways in which we can improve and update our services.

We will also review the history of our service movement.

We look forward to sharing this time and information with you. I believe you will want to be part of this very important conference. Your views matter greatly. Please plan to be with us.
